New York, January 21.—The advantage gained during the upward swing of the stock market yesterday was maintained firmly to-day and further advances were made. Traders on the long side of the market operated more confidently. There was further covering of short contracts, and at times during the session prices were marked up in response to spirited bidding.

News of the acceptance by Turkey of the puace terms was received a few minutes before the close and was followed by an outh it of active buying for both accounts, during which prices were lifted to the highest point of the day. In spite of the improvement in sentiment, buil traders showed no disposition to attempt extensive ventures, and, after the advance in the morning trading, the market became dull, with occasional reactions due to profit-taking.

London bought stocks here on a modcrate scale. The clearing of the Euro-pean political outlook will remove a restraining influence which has borne heavily upon the bourses of Europe and less directly upon the bond mar-

Further engagements of gold for South America to-day brought up the total exports for the week to \$5,500,000. The bond market was irregular, with especial weakness in distillers, fives. Total sales, par value, \$1,830,000.

CHICAGO GRAIN MARKET.

CHICAGO GRAIN MARKET.
Chicago, January 22—Wheat and oats were heavy and slightly lower to-day; corn firm, and provisions steady. Wheat exhibited a flurry of firmness early on the corn strength and on the estimate of an European authority that the Continent will require a weekly supply of 12.86,300 hushels, but at no time did the price equal yesterday's close.

The strength of corn was interrupted only once, when plt traders, following the early buying, sold to secure quick profits. This was near the close and knocked only 4c. of the top of the price.

Dozen Witnesses Examined in

Prado picture of the "Medonna delia Quercia." or "Holy Family Under An Oak," now at the Cecil Hotel, London, far from being a Raphael original, is merely a school copy, vastly inferior to the Prado copy in every respect.

The picture in the Prado at Madrid is generally admitted to be only a copy, so the newly discovered painting is certainly not by Raphael. The composition of the two pictures is identical, but the frequent retouchings of the alleged "original" have introduced slight changes, and scarcely any of the original brushwork is left.
